This presentation does not constitute financial product advice, investment, legal, taxation or other advice and is not intended to be used or relied upon as the basis for making an investment decision. This presentation is not a recommendation to acquire Resolute securities and has been prepared without taking into account the investment objectives, taxation situation, financial situation or needs of individuals. Before making any investment decision in connection with any acquisition of Resolute securities, prospective investors should consider the appropriateness of the information having regard to their own objectives, tax situation, financial situation and needs and seek financial, legal and taxation advice appropriate to their jurisdiction.

Past performance information given in this presentation is for illustrative purposes only and should not be relied upon as an indication of future performance. This presentation includes certain forward-looking statements, including statements regarding our intent, belief or current expectations with respect to Resolute's business and operations, market conditions, results of operations and financial condition, and risk-management practices. Words such as 'project', 'foresee', 'plan', 'expect', 'aim', 'intend', 'anticipate', 'believe', 'estimate', 'may', 'should', 'will' and similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position and performance are also forward-looking statements. Forward-looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. These statements are based upon a number of estimates and assumptions that, while considered reasonable by Resolute, are inherently subject to significant uncertainties and contingencies, many of which are outside the control of Resolute, involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward looking statements on certain assumptions, which may prove to be incorrect. Actual results, performance, actions and developments of Resolute may differ materially from those expressed or implied by the forward-looking statements in this presentation.

As an Australian company listed on the Australian Securities Exchange (ASX), Resolute is required to report Ore Reserves and Mineral Resources in Australia in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Recipients should note that while Resolute's Mineral Resource and Ore Reserve estimates comply with the JORC Code, they may not comply with relevant guidelines in other countries.

For details of the Mineral Resources and Ore Reserves used in this presentation, please refer to ASX Announcements dated 17 February 2021 titled "Annual Ore Reserve and Mineral Resource Statement" and 7 April 2021 titled "Resolute and Syama Life of

Mine update". The Company is not aware of any new information or data that materially affects the Mineral Resources and Ore Reserves as reported in those ASX Announcements and confirms that all material assumptions and technical parameters underpinning the estimates in those ASX Announcements continue to apply and have not materially changed. The form and context in which the Competent Persons' findings are presented have not been materially modified from those ASX Announcements.

All in Sustaining Cost (AISC) per ounce of gold produced are calculated in accordance with World Gold Council guidelines. These measures are included to assist investors to better understand the performance of the business. Cash cost per ounce of gold produced and AISC are non-International Financial Reporting Standards financial information.

An investment in Resolute is subject to known and unknown risks, some of which are beyond the control of Resolute, including possible loss of income and principal invested. Resolute does not guarantee any particular rate of return or the performance of Resolute, nor does it guarantee any particular tax treatment. Investors should have regard (amongst other things) to the risk factors outlined in this Presentation when making their investment decision. See the "Key Risks" section of this presentation for certain risks relating to an investment in Resolute.

This presentation includes pro-forma financial information which is provided for illustrative purposes only and is not represented as being indicative of Resolute (or anyone else's) views on Resolute's future financial position or performance.

A number of figures, amounts, percentages, estimates, calculations of value and fractions in this presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this presentation.

Resolute's revised production guidance for 2021 is 315,000oz to 340,000oz at \$1,290/oz to \$1,365/oz. Resolute does however continue to assess developments and update the Company's response to COVID-19 while placing the highest priority on the safety and wellbeing of its employees, contractors and stakeholders. Further escalation of COVID-19 (including its variant forms), and the implementation of further government-regulated restrictions or extended periods of supply chain disruption, has the potential to negatively impact gold production, earnings, cash flow and the Company's balance sheet.

This presentation has been authorised for release Managing Director and CEO, Mr Stuart Gale.

Half Year in Review

- Key Board, executive and management appointments
- Syama underground mining, processing and roaster throughput at highest levels
- Mako continuing to achieve targets
- Implementation of productivity and efficiency initiatives
- Tabakoroni underground resource update
- Debt repayments of \$29.7m including \$20.0m voluntary debt repayment completed ahead of schedule
- Bibiani sale complete for \$90m

1. Includes Ravenswood contribution to March 2020. Refer to sale announcement dated 31 March 2020

Revenue

- Gold sales 151.5koz at average realised price of \$1,723/oz (H1 20: 212,668oz at \$1,427/oz).
- Ounces sold reflect:
 - divestment of Ravenswood in H1 20 (9koz)
 - lower oxide and sulphide grades at Syama
 - Mako cut-back to improve access to the ore body

Non cash impacts

- Impairment charges of \$172.5m
- Reduced depreciation and amortisation reflects extension of the Mako LOM and lower production
- Foreign exchange revaluation of loan accounts and inventory NRV adjustments

Taxes

- Provisions and non-cash adjustments related to historical acquisitions, disposals and reversal of deferred tax balances

Cash Flow Analysis

Operating activities of \$41.6m support Capex of \$37.4m and debt repayments of \$29.7m

Resolute

Strengthening balance sheet and hedge book

Balance sheet improvement

- \$29.7m in debt repayments including \$20m voluntary debt repayment on Revolving Credit Facility
- \$20m capacity on \$150m Revolving Facility
- \$150m Term Loan Facility amortising at \$25m starting September 2021
- Prioritise free cashflow to repayment of debt
- Mali overdraft facilities offering short term liquidity

Gold hedging (at 30 June 21):

	Forward Sales	
	Forward Price (\$/oz)	Delivery (oz)
Sept 2021 Quarter	1,716	58,000
Dec 2021 Quarter	1,730	30,000
Total	1,721	88,000

65,000oz of zero cost collars added in 2021 comprising:

- Put options averaging \$1,669/oz
- Call options averaging \$2,119/oz

Balance sheet upside

- \$30m initial cash proceeds from sale of Bibiani to be applied to voluntary debt repayment. Remaining proceeds from sale of \$60m to be received in the next 12 months
- Ravenswood sale proceeds up to A\$250m available from March 2024

Key initiatives

Production and processing focus

Resolute

Systems

Implementation of key systems and process which support improved consistency, production and cost reduction

- Management operating system development and adoption across Syama
- On-Stream Analyser implementation to improve process control and roaster feed grades
- Installation of cleaner cells on the Sulphide processing system
- Installation of mill optimisation software, including a Mill Slicer, at Mako to increase throughput

Projects

Improve efficiency and cost reduction including:

- Syama power station has been fully commissioned during June quarter
- Roaster refurbishment – providing improved throughput and recoveries
- Conversion of contractors to employees for the underground development and mobile maintenance

People

Continue to build our teams:

- Board renewal, appoint of key executives and site based operational managers
- Support and training of managers and supervisors to deliver production and cost improvements

Exploration

- Near mine focus on potential at Syama and targets surrounding Mako

Renewal of Team

Addition of broad new skill set, expertise and experience during 2021

Board

Executive

CEO, COO, CFO, Co Sec

Senior Management

GM Syama, Country Manager Mali, GM Technical Services, GM Metallurgy, Syama Geology Manager, Underground Mining Manager, GM Sustainability

- Vast resources sector experience
- Multiple technical and operational competencies
- Regional proximity to operations
- Strengthened regional and community relationships
- Renewed energy and enthusiasm

Exploration: Mali

Controls 85km strike length of highly endowed Syama Greenstone Belt

Syama Oxide Exploration

- Exploration success at A21, Alpha and Beta in the north together with Tabakoroni extends mining
- Excellent recently announced intersections at Syama North
 - 14m @ 10.05g/t Au - SERC138 7m @ 11.43g/t Au - BARC239
 - 15m @ 6.02g/t Au - SERC141 3m @ 58.88g/t Au - BARC243
 - 18m @ 4.98g/t Au - SERC143

Syama Sulphide Exploration

- Excellent high grade drilling results from Tabakoroni growing the mineral resources 8.1Mt @ 4.89g/t Au for 1.26Moz (Dec 2020)
- High grade “shoots” remain open at depth along 1.5km Tabakoroni shear zone
- Recent drilling results outside the current resource model
 - 13m @ 14.52g/t Au - TADD841
 - 9m @ 17.42g/t Au - TADD954
 - 18m @ 36.77g/t Au - TADD968
- Increase in resources expected in upcoming estimation in late 2021
- Enormous potential for additional sulphide resources at Syama North and Tabakoroni

Exploration: Senegal

Near Mine exploration focus to support the capital investment in the operation

Mako

- Mako mine life extended to 2027
- Several near-mine targets on Mine Lease
- Mako NW target, soil anomaly 2g/t parallel to Mako mine

Mako Regional

- Increasing ground holdings adjacent to Mako operation
- New JVs at **Mamakanti** and **Laminia**
- New 100% owned permits at Sangola and Koulountou East
- Evaluating all permits within a 30km radius of Mako operation

Tomboronkoto JV, Senegal

- Historic non-JORC resource of 300,000oz hosted in sheared granite
- Previous drilling by Randgold at the Tomboronkoto prospect
- Excellent potential for satellite mill feed – 15km SE of Mako
- Open along strike and down dip with artisanal mining over 2km strike

Exploration: Regional

Early stage exploration projects in Guinea

Kourouba JV

- 4km Au soil anomaly
- Extensive artisanal workings
- AC program just completed with modest results

Niagassola

- Large untested Au soil anomaly
- Auger drilling underway

Kouroussa

- Untested Au soil anomaly
- No drilling to date

Strategic Investments in Africa

Portfolio Updates

Bibiani Gold Mine

Resolute completed the sale of the Bibiani Gold Mine to Asante Gold Corporation (Asante) for total cash consideration of \$90 million

- \$30m cash received
- \$30m in six months from Completion
- \$30m in twelve months from Completion

Ravenswood Gold Mine

Ravenswood Gold Mine¹

- A\$50m Promissory note receivable attracting 6% coupon payable at maturity
- A\$50m Promissory note receivable contingent on future gold prices and Ravenswood production
- A\$150m upside liquidity payment, linked to the investment outcomes of Ravenswood for the EMR Fund

1. Refer to announcement dated 15 January 2020 for detailed explanation of these amounts.

Value through sustainability

Environmental Stewardship

- Wildlife protection in the World Heritage Listed Niokola Koba National Park in Senegal
- Hybrid modular power station at Syama anticipated to reduce emissions by 20%

Sustainable Development

- Multiple livelihood generation programs (nurseries, fisheries, poultry, market gardens, agricultural cooperatives)
- Implementation of critical hazard management standards

Governance and Integrity

- External assurance against the Responsible Gold Mining Principles
- Human Rights risk & opportunity assessments and training established

2021 guidance

Guidance updated to reflect first half performance and expectations for the remainder of the year.

	Guidance	
	Gold Production (oz)	AISC (/oz)
Gold Production Forecast	315,000 - 340,000	\$1,290 - \$1,365
Syama Sulphide	132,500 - 145,000	\$1,295 - \$1,415
Syama Oxide	67,500 – 75,000	\$1,325 - \$1,475
Mako	115,000 - 120,000	\$1,175 - \$1,225

- **Capital expenditure** (non-sustaining) for operating assets \$29m (inclusive of Mako cut back of \$13m)
- **Sustaining capital** expenditure (included in AISC) \$49m
- **Proceeds from the sale of Bibiani** to reduce debt
- **Depreciation and amortisation** \$120m based on revised production guidance

Outlook

Capitalise on strong foundation and existing investments

- People, systems and processes
- Reliable delivery on production and costs
- Disciplined capital management to simplify balance sheet
- Unlock near mine exploration potential and value
- Committed to Responsible Gold Mining Principles
